OHIO AND INDIANA ARE ANXIOUS TO LEAD THE STAMPEDE

ROOSEVELT TO NOMINATE GOV. SMITH AT TONIGHT'S SESSION

Convention after short noon session adjourned at 1:20 P. M. to 7:15 P. M. tonight.

By RAYMOND CLAPPER (United Press Staff Correspondent)

Convention Hall, Houston, June 27.—The convention fight over the nomination of Governor Alfred E. Smith resolved itself today into a scramble among states desiring to lead the break and receive the credit for putting him over.

Opposition candidates are still in the field but only nominally, because practically no one here doubts that Governor Smith will be nominated on the first ballot. This probably will be taken tomorrow night with a national radio audience listening in.

As the convention met for its second day's session, Smith leaders were receiving overtures from many states desiring to lead the stampede, including Ohio and Indiana.

"We understand these states want to do this," said Franklin D. Roosevelt, Smith floor leader, "but we will enter into no prearranged plan of this kind. If there is a break to Governor Smith it must come spontaneously and the state that gets the floor first will be the one to lead it. We will make no arrangements of this kind with any state."

Smith's name will be first formally mentioned in the convention at tonight's session when he will be placed in nomination by Roosevelt.

This will set off the first big Smith demonstration of the convention, for his managers have been holding down their followers with strong silence orders. They wanted to avoid any premature demonstration which might arouse hostility. Now the drift to Smith has become so strong, and his nomination is so generally anticipated that when Roosevelt makes his nominating speech to-night the lid is expected to be blown off.

Senator Reed of Missouri is still in the race and refuses to release his delegates. Senator George of Georgia, Cordell Hull of Tennessee and Evans Woolen of Indiana have not yet formally withdrawn but their candidacies are now regarded as only nominal.

The Ohio delegation in caucus today voted to cast its vote for Allee Pomeroy on the first ballot but with the provision that any delegate could change his vote before the end of the roll call. That meant that before the entire list of states was polled Ohio would change to Smith and very likely assure his nomination on the first ballot.

The selection of Senator Joseph I. Robinson as vice presidential nominee is regarded as likely at Friday's session.

By CARL D. GROAT (United Press Staff Correspondent)

Convention Hall, Houston, Texas, June 27.—Democrats strode firmly today toward nomination of Gov. Al Smith of New York as presidential candidate.

Swinging into their third session, they moved forward toward the hour when Smith will be named their standard-bearer, with Senator Joseph Robinson of Arkansas his probable running mate.

Today's 11 o'clock session was called to hear reports of credentials and other committees, to name Robinson as permanent chairman and to hear from him a ringing speech, supplementary to the key-note appeal of Claude Bowers of New York, in last night's meeting. Bowers had set the tempo of the campaign with a denunciation of alleged scandals in the republican administration in oil and in campaign contributions, and for its treatment of the farmer. Nominating speeches may be undertaken today.

Meantime, the platform committee began its labors in advance of the third convention session. Prohibition and farm relief formed its main fighting points.

Wets and dries were allowed an opportunity to talk; farm relief men were permitted to repeat the oft-told story of the American farmers' plight. Then tonight the platform men will wrangle out the question of (Continued on Page 6)

BOY AND GIRL HIDE; FAILED IN SCHOOL WORK

New York, June 27.—(U.P.)—Somewhere in the metropolitan area two children—a boy and a girl—are hiding today because they failed in school.

Marjorie Gill, 19, of Ashbury Park, N. J., ran away from home rather than tell her parents that she would have to remain in the junior class at Trenton high school for another year. She fled in her father's automobile which was found on the Edinburg-Cranbury road.

Jean Faup, 14, of New York, failed in his grammar school examinations, packed his boy scout knapsack with food and left home. No trace of him has been found.

MEN FLOATED AWAY WITH BALLOON, MAY HAVE PERISHED QUICKLY

Rome, June 27.—(U.P.)—One member of the dirigible Italia's crew was killed when the polar dirigible crashed May 25, General Umberto Nobile advised today, and he made a most disheartening report that indicated the men who floated away with the balloon might have perished shortly after the crash.

The dirigible sank suddenly May 25 and smashed a gondola. Vincenzo Pomella, an Englishman, was killed, as his forward engine turret also struck the jagged ice. He was thrown from the turret and subsequently was buried on the out of the way icy island with full honors.

After the cabins had been smashed the bag lifted, and propelled by a high wind, started floating eastward.

Today the commander—who is painfully injured aboard the Citti Di-Milano after having been rescued Saturday—advised that when the bag was 10 kilometers away from the scene of the crash, a pillar of smoke was seen to shoot into the air.

Since then, there has been no word of those valiant men who had started out so hopefully to record observations at the North Pole. There were seven men not in the gondola.

But no one has sighted a trace of the great dirigible that had cruised over the North Pole and then had crashed.

There have been no indications of what caused the dirigible to descend suddenly on May 25.

Oslo, Norway, June 27.—(U.P.)—The newspaper Morgen Bladet, in a dispatch from Tromsø, said today that fishermen reported that at 6 p. m., on June 18 they had seen a Latham airplane—such as was used by Roald Amundsen and his relief expedition—flying near the water south of Bear Island.

The fishermen said the airplane seemed too heavily loaded.

It was pointed out here that if the fishermen's report was correct, the big French seaplane had encountered difficulties within two hours after it left Tromsø to go to the aid of the Italia's craft. The plane left Tromsø about 4 p. m. on June 18.

"SWEETHEART DINNER" TONIGHT—MANY PRIZES IN ATHLETIC PROGRAM

Breezy Point, Minn., June 27.—The opening session of the twenty-eighth biennial convention of the Kappa Kappa Gamma international fraternity was held at convention hall, Breezy Point Lodge, yesterday morning with National President Mrs. Georgia Lloyd-Jones presiding. The convention procession formed in front of the main lodge and proceeded to the hall in this order, marshal of convention, provincial vice presidents, alumnae association delegates, province presidents, chapter delegates, deputies, distinguished guests, committee chairmen, and the national council.

After the scripture reading and the opening ritual, Mrs. Burt gave the report of the credential committee. Speakers were Mrs. Schofield, Mrs. Ostott of Sigma chapter who has attended thirteen consecutive conventions, Charlotte Powell Goddard, who has received recognition for having been in student aid fund work for 20 years.

Cheering Messages
Minnie Royce Walker of Iowa chapter who wrote the first Kappa history spoke briefly. Mrs. Westermann, who has held many offices, gave a message to make foundations for Kappa friendships, and especially with people in other chapters.

The message of Mrs. Emily Bright Burnham urged Kappas to hold to the spiritual side of Kappa. Mrs. Kuhn, first president, brought a sincere greeting to the convention. Three generations of Kappas, Mrs. Beck, Mrs. Culmer and Peggy Culmer all of Delta chapter, occupied seats of honor at the convention.

The convention was opened with a gavel made from the staircase of old main at Monmouth where Kappa was founded. Pi Beta Phi and Kappa were both presented with gavels made from this wood when the old building was dismantled.

Greetings were read from Alice, Mabel and Georgia Pillsbury all of Monmouth. They were Kappas in 1871, 1873 and 1876 respectively. Greetings were also received from the Grand Presidents of Kappa Alpha Theta, and Pi Beta Phi sent for the fraternities.

Chi Chapter Charter Members
Charter members of Chi Chapter of Kappa Kappa Gamma of the University of Minnesota sent greetings. The members are Grace Curtis Gowran, Augusta Perkins Gillette, Adelaide Wyman Partridge, Lillian Wilber Snyder and Louise Camp Jamison.

Mrs. Kate Cross Shenahan, third grand president, was introduced to the convention. She lives in Minneapolis, is a member of Chi chapter and was in office 40 years ago. She has two younger sisters, one sister-in-law, three daughters and three nieces who are all members of the Chi chapter of Kappa Kappa Gamma.

Strong and Weak Points of Chapters
Active delegates gave the strongest and weakest points of their chapters. Lack of cooperation with the national seemed to be a weak point of most of the chapters and scholarship came next.

Campus activity was the strongest point of the majority of the chapters.

Endowment Dinner
Miss Clara O. Pierce and committee were hostesses at the endowment dinner last evening. National President Mrs. Georgia Lloyd-Jones was toastmistress. The guests from the active chapters were seated together and the alumnae guests were arranged geographically, those from each state enjoying the repasts together.

Casper, Wyo., June 27.—(U.P.)—A tornado which struck the Salt Creek oil field near here late yesterday caused property damage estimated at \$500,000 early today.

More than 125 oil derricks were wrecked, two gas plants and one pumping station were demolished and at least one person was injured.

Communication was crippled by the storm and only meager reports were available.

A heavy rain and hail storm followed the tornado making highways almost impassable and causing streams to overflow.

Two gas plants of the Midwest Oil Co., and a giant pumping station in the path of the tornado were destroyed.

Crews of workmen were rushed to the area to restore communication.

TIM MURPHY, LABOR LEADER, IS ASSASSINATED

GANGSTERS OF CHICAGO COMMITTED DEED LAST NIGHT

MURPHY DIES OF MACHINE GUN FIRE ON LAWN OF HIS HOME

Chicago, June 27.—(U.P.)—Big Tim Murphy, one of the stormiest labor leaders of recent American history, was assassinated by gangsters last night.

Murphy, whose career led from a stockyards saloon through paths of turbulence and crime to a place of vast power and influence, died from machine gun fire on the lawn of his home here.

The assailants rang his doorbell and when Murphy appeared, they opened fire from a motor car in front of the home and sped away.

Big Tim had ducked as the hail of bullets came at him but a solitary bullet caught him in the back. He was dead before doctors could reach him.

Warfare among racketeers of the cleaning and drying trade, in which Murphy recently had become involved, was believed by police to be responsible.

Magnetic, witty, nonchalant, Big Tim organized union after union in an ambitious program of labor activities. Gradually he ascended to the position of a czar in the Chicago labor world, his might equalled by few other civic leaders.

A few years ago he was indicted and convicted with Carozzo, his pal, in the \$125,000 Dearborn Street mail robbery. Big Tim was sentenced to five years in Leavenworth federal penitentiary and fined \$10,000.

About a year ago Big Tim opened one of the most magnificent and pretentious gambling casinos ever seen in Chicago. It had diamond-studded roulette wheels and was guarded by an elaborate arsenal.

It flourished for only a short time. The police surrounded it one night and, in a spectacular raid, wrecked the dazzling establishment.

Chicago, June 27.—(U.P.)—"Big Tim" Murphy, Chicago's original "racketeer" and probably the most notorious figure in gangland's history, was dead today after a night of the most ruthless gang warfare this city ever has known.

Big Tim was the victim of the machine gun—a method of assassination unknown when he first began "racketeering" more than ten years ago—and before the confusion surrounding his murder had subsided, five more shootings had occurred, two of them linked directly with his slaying.

Two men were killed besides Big Tim, one of them was known as a leader in the war for vice-control.

Nicholas Manos, manager of the Metropolitan hotel and a rival of "Scarface Al" Capone for control of Chicago's gambling and vice, was shot to death in front of his hotel.

This killing, police believed, was connected with the entry of Big Tim into the cleaner's and dyer's racketeering war, into which Capone has been active.

Less than a half-hour after Manos' death came the report of the finding of the body of a well-dressed man in the bushes in Broadview, northwest suburb. The body was beaten and the victim, unquestionably, had been tortured to death, police said.

ANNUAL ASSEMBLY CONVENES EARLY IN SEPTEMBER

COMMITTEE HOPES TO DRAFT MODEL SECURITY TREATIES

TO SUBMIT TO ASSEMBLY AS BASIS FOR DISARMAMENT PACTS

By HENRY WOOD (United Press Staff Correspondent)

Geneva, June 27.—A last effort to accomplish something tangible toward disarmament before the League of Nations annual assembly convenes in September was begun today by the League's security and arbitration committee.

No secret was made of the committee's belief that 1928, which was to be a banner year in disarmament accomplishment, has developed nothing to date.

The committee hoped to draft model security treaties for submission to the assembly as a basis for eventual disarmament treaties.

It has been admitted that a group of European nations will not disarm themselves until such security treaties have been effected—guaranteeing them against possibility of attack.

Elect Members of the Democratic National Committee at Houston

Houston, Tex., June 27.—(U.P.)—Joseph Wolf, Staples, Minn., and Mrs. Stanley V. Dodge, today were elected members of the new democratic national committee.

Identification impossible, but the circumstances indicated the man had been "taken for a ride" in true gangland fashion.

Motorcycle Policeman Robert Weiss, detailed to the Murphy assassination, gave chase to a speeding sedan and was greeted with a volley of shot-gun slugs, one of which struck him in the arm and caused him to lose control of his motorcycle. The car and its occupants escaped the policeman's fire.

Policeman Timothy Fahey was drawn into a revolver duel with two Italians in a West Side gangster haunt. One of the Italians was wounded probably fatally by the policeman's fire. He was unidentified.

Albert Allen, petty gangster and "hoodlum" was fatally wounded by a police squad which surprised him as he was attempting to force a taxi-driver to drive him to the West Side. The night of shootings threw gangland into a confusion unparalleled even by the assassinations of such famous gang chieftains as Dion O'Bannian and Hymie Weiss.

The word went around that the "war was on."

Chicago, June 27.—(U.P.)—Nicholas Manos, proprietor of the Metropolitan hotel and long associated with West Side gambling and racketeering activities, was shot to death in front of his hotel today.

Manos had arisen early and was leaving his hotel when he was felled by shot-gun fire. He died instantly.

Manos' assassination was linked by police to the slaying a few hours earlier of Big Tim Murphy, Chicago labor leader and notorious racketeer.

Manos was known as the chief lieutenant of "Mike De Pike" Heitler, gangster leader, and reputed associate of Murphy. Police learned Heitler and Murphy were seen together as late as two days ago.

Chicago, June 27.—(U.P.)—The explosion of a black powder bomb in a poolroom today routed guests of three Southside hotels and caused considerable confusion among Southside police squads.

The explosion, which wrecked the poolroom, brought frantic phone calls to police.

Detective squads, touring the Southside for traces of the slayers of Big Tim Murphy, arrived and spent nearly an hour convincing frightened men and women that gangsters were not having a pitched battle.

J. C. Miller, 75, night watchman, was slightly injured by the explosion. Police attributed the bombing to gambling feuds.

TO SUBMIT TO ASSEMBLY AS BASIS FOR DISARMAMENT PACTS

By HENRY WOOD (United Press Staff Correspondent)

Geneva, June 27.—A last effort to accomplish something tangible toward disarmament before the League of Nations annual assembly convenes in September was begun today by the League's security and arbitration committee.

No secret was made of the committee's belief that 1928, which was to be a banner year in disarmament accomplishment, has developed nothing to date.

The committee hoped to draft model security treaties for submission to the assembly as a basis for eventual disarmament treaties.

It has been admitted that a group of European nations will not disarm themselves until such security treaties have been effected—guaranteeing them against possibility of attack.

Elect Members of the Democratic National Committee at Houston

Houston, Tex., June 27.—(U.P.)—Joseph Wolf, Staples, Minn., and Mrs. Stanley V. Hodge, today were elected members of the new democratic national committee.

Identification impossible, but the circumstances indicated the man had been "taken for a ride" in true gangland fashion.

Motorcycle Policeman Robert Weiss, detailed to the Murphy assassination, gave chase to a speeding sedan and was greeted with a volley of shot-gun slugs, one of which struck him in the arm and caused him to lose control of his motorcycle. The car and its occupants escaped the policeman's fire.

Policeman Timothy Fahey was drawn into a revolver duel with two Italians in a West Side gangster haunt. One of the Italians was wounded, probably fatally by the policeman's fire. He was unidentified.

Albert Allen, petty gangster and "hoodlum" was fatally wounded by a police squad which surprised him as he was attempting to force a taxi-driver to drive him to the West Side.

The night of shootings threw gangland into a confusion unparalleled even by the assassinations of such famous gang chieftains as Dion O'Bannian and Hymie Weiss.

The word went around that the "war was on."

Chicago, June 27.—(U.P.)—Nicholas Manos, proprietor of the Metropolitan hotel and long associated with West Side gambling and racketeering activities, was shot to death in front of his hotel today.

Manos had arisen early and was leaving his hotel when he was felled by shot-gun fire. He died instantly.

Manos' assassination was linked by police to the slaying a few hours earlier of Big Tim Murphy, Chicago labor leader and notorious racketeer.

Manos was known as the chief lieutenant of "Mike De Pike" Heitler, gangster leader, and reputed associate of Murphy. Police learned Heitler and Murphy were seen together as late as two days ago.

Chicago, June 27.—(U.P.)—The explosion of a black powder bomb in a poolroom today routed guests of three Southside hotels and caused considerable confusion among Southside police squads.

The explosion, which wrecked the poolroom, brought frantic phone calls to police.

Detective squads, touring the Southside for traces of the slayers of Big Tim Murphy, arrived and spent nearly an hour convincing frightened men and women that gangsters were not having a pitched battle.

J. C. Miller, 75, night watchman, was slightly injured by the explosion. Police attributed the bombing to gambling feuds.

AMERICAN MINING MEN
ARE HELD FOR RANSOM

Mexico City, June 27.—(UP)—W. H. Mitchell and John F. Hooper, American mining men held for ransom by bandits, sent a message to friends today saying that they were unharmed, a Guadalajara dispatch to the newspaper Universal said.

Federal troops in large numbers are searching for Mitchell and Hooper, whose whereabouts are unknown.

GIRL WAS PRISONER
IN LARGE STEEL VAULT

New York, June 27.—(UP)—For almost an hour Miss Hattie Dingle, a stenographer in the Good House- Keeping institute, was a prisoner in a large steel vault while fellow workers tried to decipher the combination of the lock.

Miss Dingle entered the vault to file correspondence and someone accidentally closed the door. Other

stenographers could not decipher Miss Dingle's shorthand, in which the combination was written. Police finally cut a small hole through the terra cotta vault of the wall and passed the notebook in. Miss Dingle then read off the combination and was liberated.

17 YEAR OLD GIRL
ADMITS STRANGLING
INFANT AT OAKLAND

Oakland, Cal., June 27.—(UP)—Erma Janeschek, 17-year-old high school student, admitted to police today that she strangled to death the infant daughter of Mrs. Eric Lillencrentz because she "didn't like the baby's mother."

The Janeschek girl, held on a

first-degree murder charge, worked as a maid for Mrs. Lillencrentz. Last night she was left in charge of Mrs. Lillencrentz's two children, and infant and a 3-year-old sister.

Two detectives called to the house later found the child's body stuffed between the mattresses of the bed. The girl admitted readily she had killed the baby by choking it with a towel, the officers said.

"I don't know why I killed her, unless it was because I didn't like her mother and she didn't like me," the girl said in a confession. "She made me do lots of unnecessary work."

Other People's Opinions

Communications are not to exceed 500 words. All must be signed and will be published with name of writer.

To the voters of Brainerd:

I feel impelled to bring to your attention two things I heard at a recent meeting of our Board of Education.

I heard the statement made that outside of a few range towns, the Brainerd school district is the only school district of its size that is solvent. This is because we have gotten along with an antiquated high school for over 14 years. Now we are to have a fine one. We helped put the bonds over for it.

At the same meeting I heard Mr. Drexler say to Mrs. Thabes that if she would work for the senior high and bonds for block 155, that he would do nothing against a smaller school on block 82.

Yours for the truth,

SAMPLE BALLOT

Special Meeting and Election of the Brainerd School District, June 28, 1928.

[Place your cross-mark (X) in one of the squares]

Question No. 1

Shall the bonds of the Brainerd School District of Crow Wing County, Minnesota, be issued to the State of Minnesota in the aggregate amount of \$100,000, bearing interest at the rate of four per cent per annum, the proceeds thereof to be used to purchase the site and erect and equip a school house on the site known as the Fill Site, described as follows:

Lots numbered 1 to 9, both inclusive, and Lots numbered 16 to 24, both inclusive, of Block 82, First Addition to the Town (now City) of Brainerd, and Lots numbered 10 to 15, both inclusive, of Block numbered 82, of the Town (now City) of Brainerd,

said bonds to be numbered and to mature as set forth in the resolution now on file in the office of the Clerk.

[Place your cross-mark (X) in one of the squares]

Question No. 2

Shall the Board of Education of the Brainerd School District be authorized to sell and dispose of the following described property, to-wit:

Lots numbered 19, 20, 21, 22, 23 and 24, of Block 129, of the Town (now City) of Brainerd.

GULL RIVER

Mr. and Mrs. Phil Holzman and daughter, Phyllis, and Miss Grace Lee were Brainerd shoppers Saturday.

The Misses Maud, Marie and Madge Lynch and Miss Lucile Franklin spent Friday afternoon at Herman Peterson's.

The work on Saturday mornings will be devoted to Red Cross work in the form of individual instruction to all those who desire it. Saturday afternoons will be devoted to water games.

The schedule for the work on Tuesdays and Thursdays will be announced later although this time will be devoted to work in other parts of the county.

Thursday, June 28 at 2:30 P. M. a Red Cross demonstration will be given at Breezy Point for the benefit of the delegates assembled there for the international convention of the Kappa Kappa Gamma sorority.

Other People's Opinions

Communications are not to exceed 300 words. All must be signed, and will be published with name of writer.

To the voters of Brainerd:

I feel impelled to bring to your attention two things I heard at a recent meeting of our Board of Education.

I heard the statement made that outside of a few range towns, the Brainerd school district is the only school district of its size that is solvent. This is because we have gotten along with an antiquated high school for over 14 years. Now we are to have a fine one. We helped put the bonds over for it.

At the same meeting I heard Mr. Drexler say to Mrs. Thabes that if she would work for the senior high and bonds for block 155, that he would do nothing against a smaller school on block 82.

Yours for the truth,
MRS. C. D. MCKAY,

SUPPORT THE BOARD'S SCHOOL PROGRAM

TOMORROW, Thursday, June 28, a special election will be held to vote on the \$100,000 bond issue for the construction of the smaller of the two building projects that were voted upon at the last Special School Election. This smaller building project for the north side has already been authorized by a substantial majority of the votes, at a recent election, but, because of an ambiguous word in the Minnesota Statute relating to bonds issued to the state, a doubt has arisen as to the passage of the bond vote on this question.

Since the authorization of both school buildings, one on the south side and one on the north side, was carried by a wide margin at the last election and since the bond issue for the large south side building was also carried by a large majority, it is to be expected that this smaller bond issue to complete the north side building will receive a substantial majority and not cause delay in providing much needed school room facilities.

The voters of the Second and Third wards gave splendid support to the building project as well as the bond issue for the south side building, at the last election.

At the election tomorrow, the people of the Second and Third wards expect that their fellow citizens in the other wards will assist them in getting their school building assured at an early date and thereby give to the school children in all parts of the city equal school opportunities.

In the interests of good feeling and harmony between the several sections of our growing city, it is expected that this small bond issue, which only failed by a technicality in the use of a word (if it failed at all), will carry by a large majority.

Vote "YES" on the Bond question in fairness to all school children of Brainerd.

SUMMER IS HERE, AND THE KAPPA KAPPA GAMMAS

ACCORDING to the calendar, summer arrived June 21. But some of our lake people had their doubts about this as the thermometer flicked around the forties in the night time and some of the oldest inhabitants were wondering how crops could ever grow in such uncertain weather.

The Kappa Kappa Gamma girls passed through Brainerd and nearly every girl carried heavy equipment, sweaters, wool dresses, etc., for as one candidly said: "We heard it was cold up here."

Monday the mercury shot to 67 degree and yesterday 76 was attained and thoughts of swimming and diving contests, tennis and golf passed from mere vision to the actualities. Summer had come and the Kappas and everybody else just reveled in the fine sunny air.

Last night the girls were dazzlingly beautiful. Natural charms were enhanced by the most wonderful gowns and shawls mere man has ever gazed upon.

We have an idea which may be worth something. Next time the old world has a conference about something or other and the ambassadorial machinery and the League of Nations and all the other societies cease to exert any real influence, let's send the Kappas over, and something will be done. An international fraternity, such as the Kappas, equipped with their mentality and pulchritude and gowned as they were last night, would cause any European coalition to capitulate and accept American suggestions to make this a better world and one with less war in it.

SWEDEN'S HERO

THE world will post in its hall of heroes the name of Lieutenant Lundborg, daring Swedish aviator who rescued General Umberto Nobile, only to be stranded in the Arctic himself when he tried to go back after the other marooned explorers, says the Minneapolis Journal editorially.

Aeronautical authorities agree that Lundborg's feat—landing a ski-shod plane on a floating ice floe and taking off successfully with passengers—was a masterpiece of aviation. So this intrepid Swede possesses not only courage of the highest order, but skill of the highest order as well.

Even as necessity is the mother of invention, so is emergency the revealer of heroism. The Arctic's European and Siberian rim has swarmed these last few days with men willing and eager to risk their own lives to carry succor to the scattered members of the Nobile party, and to the lost Amundsen and his companions. But where others failed, Lundborg, the Swede, was successful, at least in the case of Nobile. He had not only the courage of the others, but skill that seems to have been superior to theirs.

The world could ill afford to lose such a man as this. It is as important that he be brought back to safety as that Nobile should have been brought back, or that Roald Amundsen be found.

LONG LIFE

THERE is a tendency on the part of many people to make broad generalizations on the matter of long life from a single observation, says Dr. Eugene Lyman Fisk.

The fact that some great grandparent lived to be ninety years of age after gross indulgence in food, drink, tobacco—after wholesale infractions of all the rules of health—is naively offered as a good and sufficient reason why everybody should live as he pleases without regard to the possible effect on the body of poisons, infections, or other destructive influences.

Many people boast that overeating, excessive smoking, or physical sloth have no apparent ill effect on their health and cite instances of others who have survived to old age in spite of injurious habits or influences.

The person who has so much vitality as to lead him to defy the laws of health, assured that he pays no price, no matter how he lives, is likely to be the first to exhaust his account of health prematurely. On the other hand, observance of the laws of hygiene affords wonderful results in producing vitality and endurance. Insurance companies are discovering that even weak and sick people will, if they take good care of themselves, outlive those with robust constitutions who abuse their health.

OF the two Polar explorers Amundsen is lost and no one knows where he is; and Nobile is lost, but we know where he is.

Selling Vegetables at Roadside Stands

Should Be Home-Grown and of Good Quality.

To make a successful business of roadside marketing one must have sufficient interest, the right help, a good location, and the willingness to be exacting and pay close attention to details, stated Prof. Paul Work of Cornell university, speaking at the New York State College of Agriculture, on roadside markets for vegetables. One must decide whether to make a business of roadside marketing or to merely use it to increase the family income.

The produce sold should be home-grown or raised in the vicinity, and never obtained from city markets. Speaking with special reference to vegetables, he said, a fairly full line should be carried with certain products as a specialty. The vegetables should be graded with separate prices and separate arrangements for displaying different grades. Neatness and mass arrangement in display of the goods, with flowers as a side line, increase the stand's selling power.

The site of the stand should be chosen so it may be seen readily from a distance and should have ample parking space around it. The stand should be distinctive, attractive and serviceable. Signs ought to be neat and simple. But they are not as important as a catchy farm name, since permanent and not tourist trade is the more desirable.

The salesman is important in building good will and a large trade. He must present a good appearance, must never contradict, be patient, and not too talkative. Most important of all he must never misrepresent a product. To be business-like, a salesman ought always to be at the stand. Wrapping and packing are important in giving the customer satisfaction. Advertising, after the beginning, is not necessary if the products are good.

Causes of Failures to Secure Alfalfa Stand

Failures to secure stands of alfalfa on reseeded may be due to several causes, farmers interested in new seedlings are being advised. Young alfalfa needs a firm, moist seed bed that has been as carefully prepared as for sugar beets, according to Alvin Kezer, agronomist of the Colorado experiment station. For that reason the crop often is started more readily on land that has been previously in a cultivated crop that has left the soil in a good physical condition. Some failures to secure stands of alfalfa may be due to the lack of organic matter in the soil which is sometimes evident on heavy soils that "run together."

Alfalfa makes the best growth when planted fairly early in the season and not over one inch deep on heavy soils. The seed must come in contact with moisture before it will germinate, which sometimes makes it necessary to furrow and irrigate the newly seeded ground. A nurse crop is particularly valuable where the soil tends either to crust or blow, Professor Kezer points out. From one-half to two-thirds of a stand of the nurse crop is sufficient. Barley has proved the best nurse crop all over Colorado, particularly the variety known as Colossus. Kanota, a short-stemmed oat, has proved very satisfactory in the Arkansas valley. After the ground has been planted the alfalfa, rather than the nurse crop, should be favored in the matter of irrigation. The small grain will usually take care of itself as long as the young alfalfa is in good condition. The alfalfa should be irrigated as soon after the nurse crop is harvested as possible.

Rotary Hoe Useful for Breaking Crust on Soil

Among the many uses of the rotary hoe, one of the most important is that of breaking up a crust after a hard rain. Such a crust is a troublesome thing at any stage of the corn crop, but is especially serious if it occurs just about the time the corn or beans are coming through the surface, as at such a time it will turn the tender shoot back upon itself, often preventing its getting through.

Often important uses of the rotary hoe are for preparing fall plowed ground, cultivating corn and beans before they are large enough to plow, renovating alfalfa and clover. Those who have tried out this comparatively new tool are quite enthusiastic as to its value, and it promises soon to become one of our most popular farm implements.

Odors From Weeds Are Quite Difficult to Avoid

If odors come from weeds or garlic in the pasture they are difficult to avoid, but they may be controlled by pasturing the cows in the forenoon, stabling them in the afternoon and feeding some dry feed. As soon as they are milked in the evening they may be turned on pasture again for a few hours if desired. When the cows have to depend wholly on weedy pasture, the best plan is to keep them up at night, save the morning milk separate from the evening milk, and keep the cream from each in separate jars. This method will produce two different qualities of butter, both of which may be disposed of on their individual merits.

Eskimos Strong for Dominion of Spirits

The Eskimos believe in spirits inhabiting animals and inanimate objects, but their chief deity is an old woman who resides in the ocean and may cause storms or withhold seals and other marine animals if any of her taboos are infringed. Her power over these animals, says the United States bureau of ethnology, arises from the fact that they are sections of her fingers cut off by her father at the time when she first took up her abode in the sea. The chief duty of the shamans or medicine men is to find who has infringed the taboos and thus brought down the wrath of the supernatural beings and to compel the offender to make atonement by public confession. The central Eskimos suppose two spirits to reside in man's body, one of which stays with it when it dies and may temporarily enter the body of some child, who is then named after the departed, while the other spirit goes to one of several lands of souls. Some of the lands of souls lie above the earth's surface and some beneath it. The latter are generally more desirable, according to the Eskimo beliefs.—Exchange.

Electricity Known to Leaders of the Jews

That electricity must have been known to the ancients has been many times asserted, but now comes forward an electrician at Munich, one Stadelmann, who has been in times past an archeologist, to assert that he found in Egypt, in buried walls, indications denoting the use of electric lamps. He claims that Moses brought electricity from Egypt and that there are Biblical paragraphs which will bear him out in his statement that lightning rods were in use in the temple at Jerusalem. Stadelmann believes that the serpent of bronze of Moses was nothing more nor less than an ordinary lightning rod such as is in use today.

He points out, further, that the Ark of the Covenant, made as it was of wood and adorned inside and out with gold, constituted a veritable Leyden jar which communicated with a lightning rod on the roof, and that it was so arranged that, under determined conditions, it could be charged with electric fluid and produce the death of any ignorant person daring to enter the sacred precincts of the ark without necessary precautions.

Not English Currency

It is now established that the so-called Perkin Warbeck groat, which has been termed by some writers as the first English coin with a date, is neither English nor a coin. This silver jeton, or token, was minted at Tournai, in Flanders, the native town of the young pretender to the throne of England. It is presumed that Warbeck (or Werbecque) carried with him several thousand of these pieces to the British isles, intending to distribute them among the acclaiming crowds had he succeeded in deposing Henry VII. In view of the great rarity of the piece today, it is probable that the agents of the British government seized and destroyed all the specimens they could lay their hands upon.

"Pep" in Portraiture

The visitor in the high-grade photographic establishment, seeing that he would be compelled to wait for a time before the operator could give him attention, said to the attendant: "I'll go out for lunch and come right back." "No," said the attendant, "if you get your lunch do not come back for three or four hours. Eating interferes with portraiture." A heavy meal just before a sitting, photographic experts assert, robs the face of color and animation and so occupies the body in the work of digestion that the features of a sitter reflect a dull expression the camera is quick to catch.

Real Beauty

Straight noses, symmetrical features and attractive hair colorings, while they give one prettiness, do not necessarily constitute beauty. On the contrary, one has no beauty, in the strict sense, unless she expresses the finer mental and spiritual qualities, along with health and vitality. In short, beauty is not merely a physical possession, determined by body structure and coloring and texture. It is not skin deep. It is much more than that. It is in large part the reflection of personality—a revelation of life and health, intelligence and spirit.—Physical Culture Magazine.

WHAT HAS HAPPENED SO FAR.

ALEDA RAY, pretty, blue-eyed country girl, unintentionally causes an automobile accident in which Gary Chester, young engineer, is injured. Next day Alela leaves her home for New York to find work. On the train she makes the acquaintance of Marise de Rense, proprietor of a New York cabaret, who invites Alela to make her home with her in the city. Alela gets a secretarial position and learns that Gary Chester is employed by the same concern. Chester fails to recognize her. Lonely and downcast, Alela decides to visit Marise.

NOW GO ON WITH THE STORY.

CHAPTER VII.

ALEDA, looking in at the front window of Marise's old-fashioned house in the West Forties, glimpsed the tableau at the piano. The Englishman, Clive Mortimer, was playing dreamily, and Marise crooning a song.

Again that "unwanted" feeling to which the girl. She was still hurt by Gary Chester's failure to acknowledge her. She felt immeasurably alone. Surely Marise, her arm possessively resting on the shoulders of the player, wouldn't want a third party to intrude upon her tete-a-tete? Nothing but kindness, and pity for Alela's loneliness, had prompted the invitation to come here . . . ?

Her impulse was for flight. At once. She turned to run.

But at that moment a negro woman opened the front door. The singing ceased. "That you, my dear?" There was a whiff of perfume, a flutter of scarlet chiffon draperies as Marise ran forward through the dividing curtains, into the hall, to greet her guest. "Come right in. You're as welcome as June roses!"

Clive, genuine was Marise's welcome! Happy was Marise's light, trilling laugh!

Hardsome she looked, in her gay frock of red. Her lips matched her dress exactly, her teeth—extraordinarily even—were a flash of white. Even with the sunlight filtering in through the high windows of the living-room into which Marise led the girl, the former looked much younger and more vital than she had on their previous meeting in the train.

"Clive dear, you remember my little country friend, Miss Ray?" The Englishman turned on the piano stool with a lazy air.

"Chawmed to meet you, I'm sure." He held out a white, indolent-looking hand. His eyes, set much too close together for attractiveness, narrowed as he surveyed the girl.

Marise watched him like a hawk. He was well aware of the older woman's scrutiny. He would commit no error, while she was about.

"Here, take Miss Ray's hat and coat, and put them in the hall cupboard."

struggle for domestic dominance?" "Hark at him! Isn't he the learned lad?" giggled Marise, powdering her nose and looking in her pocket-mirror.

"An insufferable prig!" Alela told herself. "How can a woman stand for him?"

Through the curtains appeared the head of the negro maid. "No oranges, ma'am."

Said Marise to Clive: "Must you really have that cocktail now?" He raised his eyebrows, put a finger to his lips with what he thought was a provocative and appealing air. With his left hand he drew out a gold flask from his pocket. "Here's the nectar of the gods."

With a whispered word to Alela, Marise hurried from the room.

The moment she was gone, Clive dropped a little of his nonchalance. "How d'you like New York?"

He picked up a package of cigarettes, offered her one, then, when she declined, helped himself.

"It's very—thrilling," answered Alela slowly, "just a little overwhelming, maybe—"

The Englishman leaned back in the armchair, jerked his trousers at the knee, to save the creases, and crossed his long immaculately clothed legs.

"Don't let New York scare you. Everything in this town is one big bluff," he said.

Alela quickly regarded the good-looking, weak-chinned man.

"You've found it so? Do you play their game, then—or your own?"

He looked a little startled. Under her demure manner, was she trying to "get back" at him?

"I find it very hard to get work suited to a gentleman."

She smiled. "What is a gentleman?"

"Um. Ah. I thought everybody knew." She was like the majority of the women over here, he told himself, always seeking to trip a fellow up on every word. And then he added, rather shortly: "A gentleman is somebody who's been brought up to have decent manners, and good breeding, and who—er—plays the game, you know—and—er—all that sort of thing."

Said Alela quaintly: "That leaves one rather in the dark, I think. I prefer George Bernard Shaw's definition."

"And what's that?" He was quite nettled now.

Alela smiled enchantingly, and a little shyly.

"A gentleman," he says, "is someone who puts more into life than he takes out of it!"

"Ha! Ha! She got you there!" From behind the living-room curtains came a high, strange chuckling laugh . . . !

(To be continued.)

Never again say---

Is that all you paid for this . . . ?

Where did you ever find these . . . ?

Why, it cost me nearly twice that much!

Do tell me where you get them for that!

How do you ever manage so well on so little?

But, aren't they awfully expensive?

I wish I could do it.

SUPPORT THE BOARD'S SCHOOL PROGRAM

TOMORROW, Thursday, June 28, a special election will be held to vote on the \$100,000 bond issue for the construction of the smaller of the two building projects that were voted upon at the last Special School Election. This smaller building project for the north side has already been authorized by a substantial majority of the votes, at a recent election, but, because of an ambiguous word in the Minnesota Statute relating to bonds issued to the state, a doubt has arisen as to the passage of the bond vote on this question.

Since the authorization of both school buildings, one on the south side and one on the north side, was carried by a wide margin at the last election and since the bond issue for the large south side building was also carried by a large majority, it is to be expected that this smaller bond issue to complete the north side building will receive a substantial majority and not cause delay in providing much needed school room facilities.

The voters of the Second and Third wards gave splendid support to the building project as well as the bond issue for the south side building, at the last election.

At the election tomorrow, the people of the Second and Third wards expect that their fellow citizens in the other wards will assist them in getting their school building assured at an early date and thereby give to the school children in all parts of the city equal school opportunities.

In the interests of good feeling and harmony between the several sections of our growing city, it is expected that this small bond issue, which only failed by a technicality in the use of a word (if it failed at all), will carry by a large majority.

Vote "YES" on the Bond question in fairness to all school children of Brainerd.

SUMMER IS HERE, AND THE KAPPA KAPPA GAMMAS

ACCORDING to the calendar, summer arrived June 21. But some of our lake people had their doubts about this as the thermometer flicked around the forties in the night time and some of the oldest inhabitants were wondering how crops could ever grow in such uncertain weather.

The Kappa Kappa Gamma girls passed through Brainerd and nearly every girl carried heavy equipment, sweaters, wool dresses, etc., for as one candidly said: "We heard it was cold up here."

Monday the mercury shot to 67 degree and yesterday 76 was attained and thoughts of swimming and diving contests, tennis and golf passed from mere vision to the actualities. Summer had come and the Kappas and everybody else just reveled in the fine sunny air.

Last night the girls were dazzlingly beautiful. Natural charms were enhanced by the most wonderful gowns and shawls mere man has ever gazed upon.

We have an idea which may be worth something. Next time the old world has a conference about something or other and the ambassadorial machinery and the League of Nations and all the other societies cease to exert any real influence, let's send the Kappas over, and something will be done. An international fraternity, such as the Kappas, equipped with their mentality and pulchritude and gowned as they were last night, would cause any European coalition to capitulate and accept American suggestions to make this a better world and one with less war in it.

Causes of Failures to Secure Alfalfa Stand

Failures to secure stands of alfalfa on reseeded may be due to several causes, farmers interested in new seedlings are being advised. Young alfalfa needs a firm, moist seed bed that has been as carefully prepared as for sugar beets, according to Alvin Kezer, agronomist of the Colorado experiment station. For that reason the crop often is started more readily on land that has been previously in a cultivated crop that has left the soil in a good physical condition. There was a whiff of perfume, a flutter of scarlet chiffon draperies as Marise ran forward through the dividing curtains, into the hall, to greet her guest. "Come right in. You're as welcome as June roses!"

Oh, genuine was Marise's welcome! Happy was Marise's light, trilling laugh!

Hardsome she looked, in her gay frock of red. Her lips matched her dress exactly, her teeth—extraordinarily even—were a flash of white. Even with the sunlight filtering in through the high windows of the living-room into which Marise led the girl, the former looked much younger and more vital than she had on their previous meeting in the train.

"Clive dear, you remember my little country friend, Miss Ray?" The Englishman turned on the piano stool with a lazy air.

"Chawmed to meet you, I'm sure." He held out a white, indolent-looking hand. His eyes, set much too close together for attractiveness, narrowed as he surveyed the girl.

Marise watched him like a hawk. He was well aware of the older woman's scrutiny. He would commit no error, while she was about.

"Here, take Miss Ray's hat and coat, and put them in the hall cupboard, like a good boy." In kindly fashion, Marise fussed about Alela. "Dinner will be ready in two shakes."

"Speaking of shakes," drawled Clive, returning to the living-room after taking away the wraps, "reminds me of the cocktail-shaker. Don't you think, Marise, our little—or—arrangement—is worthy of a fitting celebration?"

"Not in the middle of the day, bad boy!" Marise shook her forefinger at him and seemed in great fettle. Then, to Alela: "I've just given our black sheep a job. He's going to help me run the Harvest Moon, on a commission basis."

"And so we'll drink to the success of the new venture." He pressed the bell-push, summoning the negro woman. "Three oranges—and ice. And make it snappy."

"Of all the nerve!" rebuked Marise. Then, to Alela: "Clive has such a way with him—so lordly and sort of condescending—like all his countrymen—I just can't get mad at him!"

Clive sank into the most comfortable chair, stretching out his long, beautifully-tailored legs. He drew, nonchalantly: "You women over here require a master. This vaunted independence of American females is all rot. There wouldn't be one-twentieth of the divorces in the United States if MAN was the boss as is the case in Europe. And, if you only knew it, women are much happier when they don't get everything their own way, but have to take their orders from the superior will, which should be found only in the male sex."

"Hence your fatal fascination?" laughed Marise. From a red-leather pocketbook on the piano she quickly pulled out a little mirror and a powder-puff. "But—"

"—challengingly—"even if we American women are big bullies, you will hand it to us, won't you, for good looks?"

"Most certainly." Clive bowed in such a patronizing fashion that Alela could have slapped the man. "Even all over Europe it's conceded that American women are handsome, and wear their clothes better than any other women can. Why, then, not take up a graceful position, and stop this eternal

struggle for domestic dominance?" "Hark at him! Isn't he the learned lad?" giggled Marise, powdering her nose and looking in her pocket-mirror.

"An insufferable prig!" Alela told herself. "How can a woman stand for him?"

Through the curtains appeared the head of the negro maid. "No oranges, ma'am."

Said Marise to Clive: "Must you really have that cocktail now?"

He raised his eyebrows, put a finger to his lips with what he thought was a provocative and appealing air. With his left hand he drew out a gold flask from his pocket. "Here's the nectar of the gods."

With a whispered word to Alela, Marise hurried from the room. The moment she was gone, Clive dropped a little of his nonchalance.

"How d'you like New York?" He picked up a package of cigarettes, offered her one, then, when she declined, helped himself.

"It's very—thrilling," answered Alela slowly, "just a little overwhelming, maybe."

The Englishman leaned back in the armchair, jerked his trousers at the knee, to save the creases, and crossed his long immaculately clothed legs.

"Don't let New York scare you. Everything in this town is one big bluff!" he said.

Alela quietly regarded the good-looking, weak-chinned man.

"You've found it so? Do you play their game, then—or your own?"

He looked a little startled. Under her demure manner, was she trying to "get back" at him?

"I find it very hard to get work suited to a gentleman."

She smiled. "What is a gentleman?"

"Um. Ah. I thought everybody knew." She was like the majority of the women over here, he told himself, always seeking to trip a fellow up on every word. And then he added, rather shortly: "A gentleman is somebody who's been brought up to have decent manners, and good breeding, and who—or—plays the game, you know—and—or—all that sort of thing."

Said Alela quaintly: "That leaves one rather in the dark, I think. I prefer George Bernard Shaw's definition."

"And what's that?" He was quite nettled now.

Alela smiled enchantingly, and a little shyly.

"A gentleman," he says, "is someone who puts more into life than he takes out of it."

"Ha! Ha! She got you there!" From behind the living-room curtains came a high, strange chuckling laugh . . .

COURSE PROVES VITAL FACTOR IN CITY'S PROSPERITY

HELEN WILLS ENTERING WIMBLEDON PLAY TODAY

BRAINERD COUNTRY CLUB FACILITIES ATTRACT TOURISTS

DIRECTORS AIM TO PROVIDE MEANS OF KEEPING VISITORS HERE

NEW POPULARITY GAINED THIS SEASON; COURSE IN FINE CONDITION

Bringing to the city thousands of dollars in trade from tourists who enjoy the courtesies of the Brainerd Country Club, the city club course has emphatically proven that it is an important factor in the development of Brainerd's summer business and prosperity.

So popular has become the course this season that many tourists prefer to make the city their headquarters while in the district so they can play the course while enjoying their vacations in the lake region.

Realizing this, the directors of the Brainerd Country Club have made a determined effort this season in improving the grounds, the club house, the fairways and the greens. And looking ahead for increased volume of patronage in future years, the club officers prepared this year to further improve the course by substituting bent grass greens for the present ones. Two grass greens have already been constructed and it is hoped that these can be played on this season.

Current with the general increase in the patronage of tourists has been the gain in local membership to the club. The course is becoming more popular daily. A visit to the course will satisfy the most particular golfer who desires a beautiful course to play on, excellent fairways kept in fine shape at all times with particular care stressed to upkeep of the greens.

The comfort of the club house may be enjoyed by visiting golfers and local members. Secretary Edward J. Egan has placed in the club house current copies of the 10,000 Lakes Golfer, The American Golfer, in addition to other golf literature. Latest copies of golf magazines and literature will be received at the club house as they are printed.

At the present time there are six student memberships as against two last year and seven associate memberships as against three last year. "Business men of Brainerd are beginning to realize that a golf course is one of the primary requisites in a lake country that considers the tourist feature worth developing," said Secretary Egan today as he discussed the situation. "Brainerd has been letting the golfing tourists go beyond us to the clubs in the near vicinity but with the grounds committee working on the new grass greens and the fairways in excellent shape, Brainerd will have very shortly a golf course that it can offer to the most particular golfer, and in that way will contribute in keeping the tourist principally in Brainerd on his visit to the lake region."

As decided by the officers at a recent meeting all players must register before starting play. Local members will register in one book and tourists in another.

Watching the Scoreboard

By United Press
Yesterday's Hero—Larry Betten-court, St. Mary's, Calif., college boy, scored four runs with his homer in the sixth, giving the St. Louis Browns a 6 to 3 victory over the Cleveland Indians.

Emile Barnes, Washington Senators, hit two home runs against the Philadelphia Athletics. Harris was on base each time.

Poor infield play cost the Detroit Tigers another game as the Chicago White Sox won 5 to 2.

The Brooklyn Robins came out of the second division, rising from fifth to third place. They beat the Boston Braves in a double header, 5 to 1 and 6 to 5.

The Chicago Cubs dropped from third to fourth place by splitting a double header with the Pittsburgh Pirates.

Collecting 18 hits, the New York Giants beat the Philadelphia Phillies 7 to 6.

CANZONERI TO FIGHT BLITMAN

Philadelphia, June 27.—(UP)—Tony Canzoneri, world featherweight champion, New York, stacks up against one of his most formidable challengers in Harry Blitman, Philadelphia, tonight, at the Philadelphia National League ball park. The fighters weighed in at 2 P. M. this afternoon at the state athletic commission and Canzoneri tipped the beam at 128 pounds. Blitman weighed a half pound less at 127½.

He'll Join Indians

Bruce Caldwell, Yale's greatest football player since Ted Coy and a baseball star of first brilliance, will, it is announced, cast his lot with the Cleveland Americans beginning the first of July. Caldwell was in the Blue colors for the last time at the annual Yale-Harvard contest.

OPENING ROUND WITH MISS GOLDSACK A MERE WORKOUT

By ROBERT C. DOWSON
(United Press Staff Correspondent)

Wimbledon Stadium, Eng., June 27.—Miss Helen Wills, the American tennis queen, will make her premier appearance as defending champion in the All-England tennis championship today.

The American girl, who has pointed for this tournament and is reported at the top of her game, will play Miss E. A. Goldsack of England in the opening round. It should be nothing more than a workout for Miss Wills.

Another American drive towards championship also will start today when William T. Tilden and Francis Hunter will play their first doubles

match of the present tournament. They will meet the British team of E. R. Avery and C. S. Higgins.

Miss L. Bickerton, Australia, today defeated Mrs. Molla Mallory, United States, 6-3, 4-6, 6-4.

John Hennessey, of the American Davis cup team, passed into the third round by defeating Norman H. Latchford, Great Britain, 6-2, 6-4, 6-2.

George M. Lott, the young Chicago player who is making his first Davis cup campaign, has drawn the stiffest opponent for the next round of all of the Americans. He will meet Rene LaCoste, the French star, probably Thursday.

Strange as it may seem, considering Lott's inexperience, the outcome of the match is problematical for the belief grows that the American team is beginning to hold a commanding position.

LaCoste, Jean Borotra and Henri Cochet, the big French trio, were unimpressive yesterday and brought the belief that William T. Tilden's drive to reclaim the All-England title might be successful.

Tilden meanwhile continued impressive with the ease with which he has won his early round matches and the remainder of the United States team—with the exception of Hunter who was eliminated—has shown good form.

Wilbur Coen, boy star of the team, joined Hennessey a few minutes later, defeating E. V. Bobb, of the In-

dian Davis cup team—his second round opponent—6-3, 6-3, 6-3.

The weather was cloudy, but there were occasional periods of sunshine.

Miss Wills, leaving the gallery to go into action herself in her second-round singles match after her first round bye, defeated Miss Elsie Goldsack, English hard-courts champion, 6-2, 6-1.

Miss Wills took it easy throughout. A crowd of more than 20,000 watched the match.

Miss Amelia Earhart of the trans-Atlantic airplane Friendship, and Lady Oxford sat chatting together in the distinguished visitors' stand.

A Western Hope in the Olympics

© 1928, by King Features Syndicate, Inc. Great Britain rights reserved.

By QUIN HALL.

DESPITE a recent defeat at the hands—or we might rather say feet—of Raymond J. Barbuti, the Syracuse Captain, Emerson (Bud) Spencer, crack quarter miler and captain of Stanford University's track team, still stands out as a real menace in the Olympic final tryouts to be held at New Haven and Cambridge next week.

Over a rain soaked, slippery course at Cambridge on May 26, Spencer lost to the heavy muscled and mercury footed Barbuti whose extra reserve power told in the mire and carried him home the winner over the Stanford star as well as Launcelot P. Ross, of Yale, and Gerard Swope, of Dartmouth.

Given a fast track next week Spencer is likely to redeem himself, as he has been clocked over the 400-metre distance in 47 seconds flat and has been running the 440 in 48 seconds or better all season. On four occasions earlier in the year Bud has turned in a phenomenal quarter-mile and in the Stanford-California get-together he broke the dual meet record.

However, Barbuti's remarkable performance must not be discounted and the ability of Ross must not be overlooked or dimmed. Both of these hoofers are sterling performers and may upset the bean basket when the final workouts come off next week.

Spencer's time, however, cannot be sidetracked and the consistency he has shown in stepping over the distance makes him a likely winner, or at least almost a sure entry in the event for Uncle Sam in the games at Amsterdam. His mark of .47 flat for the 400-metre is two-fifths of a second less than the mark set as a record by Ted Meredith, back in 1916.

Spencer in his races has been forced to overcome the handicap of blindness in his right eye. Last year in Eastern competition this worked against him. He left the Pacific Coast with a brilliant record—unbeaten in Coast competition and with half a dozen races in better than 0.49. Feeling assured of victory, he loaded down the stretch. Three runners, Ed Roll, Colgate; Swope, Dartmouth, and Francis Burns, Holy Cross, dashed down the track on his right side, and before he knew it he was beaten and eliminated.

That incident taught him a lesson and there will be no loafing on

his part during the try-outs. And even in the face of his recent defeat he should be well thought of as a favorite when he meets such eastern stars as Ross, Barbuti and Swope on a well-conditioned track.

The question of climatic changes always bobs up when western athletes go east or eastern athletes go west for any competitions and this year is no different from other years in that respect.

But the question seems to have been fairly well solved for the Stanford team. They trekked east prior to the I. C. A. A. A. A. championship games at Cambridge, May 25 and 26, and were at Chicago for the Intercollegiate games June 8 and 9. From there Coach "Dink" Templeton took his Cardinals to Maine, where they are now resting preparatory to the tests next week.

This, apparently, should give Spencer, Eric Krenz, the weight tosser, and the other surviving members of the Stanford squad ample time to become well-acquainted with the Eastern brand of weather.

No matter what happens at the final trials the Stanford stars will probably not blame the result on the tritest of all alibis—the weather.

MAYBE RISK AND GODFREY FIGHT TONIGHT

New York, June 27.—(UP)—Twice postponed, the ten-round fight between Johnny Risko of Cleveland and George Godfrey of New Orleans will take place at Ebbets field tonight, weather permitting. Rain last week caused the postponements.

Godfrey, the giant negro, will have some forty pounds advantage over the baker from Cleveland.

The fighters were in New York today, having given up their training camps. Both were reported in excellent condition.

New York, June 27.—(UP)—George Godfrey weighed 235 and Johnny Risko 190½ when they weighed in at the offices of the New York state athletic commission for their 10-round heavyweight bout at Ebbets field, Brooklyn, tonight. The sun was shining brightly this afternoon making it unlikely that the bout would be postponed. The bout was scheduled a week ago but twice postponed because of threatening weather.

Of the Conifer Family

The torrey pines occur in restricted localities in Florida, California, Japan and China. They are a genus of conifer, belonging to the larchine or yew tribe. The California species, known as Californian nutmeg, is the largest, reaching a height of 70 feet and occasionally even 100 feet.

Niagara Water Clear

In accounting for the color of the water of the Niagara it is necessary to consider the fact that the waters of this river come directly from the lake in which they have left all sediment they may have held in suspension, and therefore are clear. Authorities are of the opinion that the greenish color of the water is due to the amount of carbonic acid gas that it contains.

LaCoste, Jean Borotra and Henri Cochet, the big French trio, were unimpressive yesterday and brought the belief that William T. Tilden's drive to reclaim the All-England title might be successful.

Tilden meanwhile continued impressive with the ease with which he has won his early round matches and the remainder of the United States team—with the exception of Hunter who was eliminated—has shown good form.

Wilbur Coen, boy star of the team, joined Hennessey a few minutes later, defeating E. V. Bobb, of the In-

dian Davis cup team—his second round opponent—6-3, 6-3, 6-3.

The weather was cloudy, but there were occasional periods of sunshine.

Miss Wills, leaving the gallery to go into action herself in her second-round singles match after her first round bye, defeated Miss Elsie Goldsack, English hard-courts champion, 6-2, 6-1.

Miss Wills took it easy throughout. A crowd of more than 20,000 watched the match.

Miss Amelia Earhart of the trans-Atlantic airplane Friendship, and Lady Oxford sat chatting together in the distinguished visitors' stand.

MAYBE RISK AND GODFREY FIGHT TONIGHT

New York, June 27. — (U.P.)—Twice postponed, the ten-round fight between Johnny Risko of Cleveland and George Godfrey of New Orleans will take place at Ebbets field tonight, weather permitting. Rain last week caused the postponements.

Godfrey, the giant negro, will have some forty pounds advantage over the baker from Cleveland.

The fighters were in New York today, having given up their training camps. Both were reported in excellent condition.

New York, June 27. — (U.P.)—George Godfrey weighed 235 and Johnny Risko 190½ when they weighed in at the offices of the New York state athletic commission for their 10-round heavyweight bout at Ebbets field, Brooklyn, tonight. The sun was shining brightly this afternoon making it unlikely that the bout would be postponed. The bout was scheduled a week ago but twice postponed because of threatening weather.

Of the Conifer Family

The torrey pines occur in restricted localities in Florida, California, Japan and China. They are a genus of conifer, belonging to the linaeace or yew tribe. The California species, known as Californian nutmeg, is the largest, reaching a height of 70 feet and occasionally even 100 feet.

Niagara Water Clear

In accounting for the color of the water of the Niagara it is necessary to consider the fact that the waters of this river come directly from the lake in which they have left all sediment they may have held in suspension, and therefore are clear. Authorities are of the opinion that the greenish color of the water is due to the amount of carbonic acid gas that it contains.

A Western Hope in the Olympics

© 1928, by King Features Syndicate, Inc. Great Britain rights reserved.

By QUIN HALL.
DESPITE a recent defeat at the hands—or we might rather say feet—of Raymond J. Barbuti, the Syracuse Captain, Emerson (Bud) Spencer, crack quarter miler and captain of Stanford University's track team, still stands out as a real menace in the Olympic final tryouts to be held at New Haven and Cambridge next week.

Over a rain soaked, slippery course at Cambridge on May 26, Spencer lost to the heavy muscled and mercury footed Barbuti whose extra reserve power told in the mire and carried him home the winner over the Stanford star as well as Launcelot P. Ross, of Yale, and Gerard Swope, of Dartmouth.

Given a fast track next week Spencer is likely to redeem himself, as he has been clocked over the 400-metre distance in 47 seconds flat and has been running the 440 in 48 seconds or better all season. On four occasions earlier in the year Bud has turned in a phenomenal quarter-mile and in the Stanford-California get-together he broke the dual meet record. However, Barbuti's remarkable performance must not be discounted and the ability of Ross must not be overlooked or dimmed. Both of these hoovers are sterling performers and may upset the bean basket when the final workouts come off next week.

Spencer's time, however, cannot be sidetracked and the consistency he has shown in stepping over the distance makes him a likely winner, or at least almost a sure entry in the event for Uncle Sam in the games at Amsterdam. His mark of .47 flat for the 400-metre, is two-fifths of a second less than the mark set as a record by Ted Meredith, back in 1916.

Spencer in his races has been forced to overcome the handicap of blindness in his right eye. Last year in Eastern competition this worked against him. He left the Pacific Coast with a brilliant record—unbeaten in Coast competition and with half a dozen races in better than 0.49. Feeling assured of victory, he loafed down the stretch. Three runners, Ed Roll, Colgate; Swope, Dartmouth, and Francis Burns, Holy Cross, side, and before he knew it he was beaten and eliminated.

That incident taught him a lesson and there will be no loafing on his part during the try-outs. And even in the face of his recent defeat he should be well thought of as a favorite when he meets such eastern stars as Ross, Barbuti and Swope on a well-conditioned track.

The question of climatic changes always bobs up when western athletes go east or eastern athletes go west for any competitions and this year is no different from other years in that respect.

But the question seems to have been fairly well solved for the Stanford team. They trekked east prior to the I. C. A. A. A. A. A. championship games at Cambridge, May 25 and 26, and were at Chicago for the Intercollegiate games June 8 and 9. From there Coach "Dink" Templeton took his Cardinals to Maine, where they are now resting preparatory to the tests next week.

This, apparently, should give Spencer, Eric Krenz, the weight tosser, and the other surviving members of the Stanford squad ample time to become well-acquainted with the Eastern brand of weather.

No matter what happens at the final trials the Stanford stars will probably not blame the result on the tritest of all alibis—the weather.

ENDOWMENT DINNER OF KAPPA KAPPA GAMMA LAST NIGHT

(Continued from page 1)

Claire, Gladys Kinnear and Mrs. Leonard R. Shaver.

Shakespearian Program

Convention hall during the evening was the scene of a most original and delightful concert by Elizabeth Gunn Seebirt with Lottie Baker Gunn as her accompanist. Mrs. Seebirt entertained Kappas with the Shakespearian program which has made her so well known. Both of these talented musicians have spent much time arranging this costume program. In their own library they have collected over 200 songs with Shakespearian words, and from this collection they have arranged the charming program which they presented. Mrs. Seebirt's first number was the Willow Song from Othello, Act IV, Scene 3. Shakespeare took this song from the Thomas Dalless Lute book, 1583.

"Sweetheart Dinner"

Kappa Kappa Gamma international fraternity is a-flutter, for tonight is the "sweetheart dinner" in the big log dining room at Breezy Point Lodge. Tables will be designated by men's Greek fraternity letters, Eastern men's colleges, lady bachelors and married "barbarians," and will flaunt fraternity colors and pins. Genevieve McNellis is chairman and on the committee with her are Catherine Cudworth, Ona Boyd and Ann Thompson.

Athletic Program

A beautiful silver cup, which will be donated to the chapter which has most actively participated in the sports contest is now on display in the lobby of the hotel. It was donated by Mr. and Mrs. Roy A. Witt of Minneapolis and will be presented at the final banquet. A flock of cups is to be contested for in the many athletic events, all most beautiful.

The tennis champion will receive a handsome beaded bag presented by the Minnesota Alumnae Association. Golfers' first prize is a large silver plate and there are two other golf trophies. Tournaments in bowling and archery will also be held as well as bridge tournament and swimming meet. Every chapter is expected to participate in the swimming meet which will include diving events, form and speed swimming.

Today's business session of the convention is rather informal. In the morning chapter reports were given. This afternoon there were innumerable round table discussions and committee meetings.

Apparatus for Cure of Air Sickness Invented

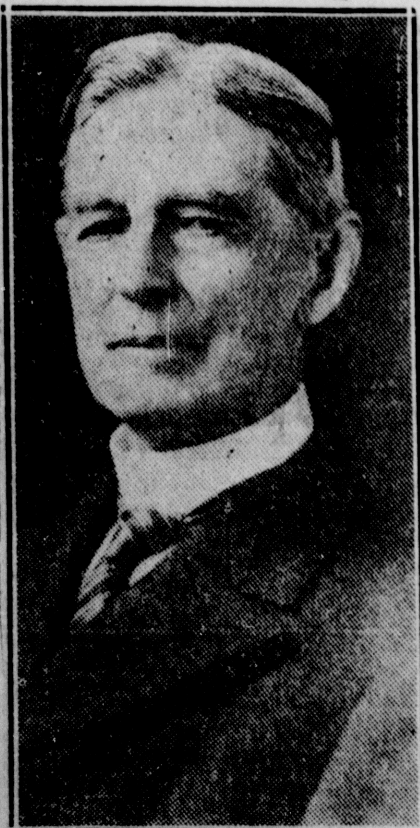

Berlin.—Air sickness, cousin to sea sickness, need no longer haunt the dreams of the airplane passenger starting from Europe's largest air-drome, Tempelhof field, Berlin.

The Tempelhof officials have installed an apparatus for inhaling anti-sickness fumes and are convinced that it is a success. They feel confident that other airdromes of the Lufthansa (German Federal Airways corporation) will emulate the example of the Berlin flying field.

Any passenger who fears that he may become airsick, may inhale the antidote, which consists in the main of oxygen gas and cinnamon. The mixture has a quieting effect upon the nerves of the diaphragm.

Air passengers who arrived at Tempelhof quite ill from air sickness were brought back to a normal condition within less than five minutes through the inhalation of the antidote. It is planned in due time to have an inhalation apparatus installed on every passenger plane with tubes running to every seat.

how strong the dry plank shall be, and how far the party shall go in its promises of aid for the farmer.

As now arranged, the dry plank will be a serious endorsement of prohibition law enforcement. It represents a compromise. The south has reconciled itself to such a plank and to Smith, the Tammany man to whom many southerners had objected.

The platform can not be reached in convention before tomorrow. But there is little reason now to believe that the convention will be prolonged beyond Friday.

Last night a thunder and lightning storm accompanied by floods of water threatened to keep the thousands away from convention hall. The roof of the hastily constructed Sam Houston Coliseum was leaky, and the press section was partly rained out.

Claude Bowers of New York, editorial writer of the New York Evening World, stirred his audience to laughter, cheers and applause as he attacked the republican administration for its alleged alliance with Harry F. Sinclair, oil king; and ran the gamut of oil revelations and campaign contribution disclosures.

His speech climaxed, however, on the farm relief issue.

"We do not ask paternalistic

privilege for the farmer," he shouted, "but we do demand that the hand of privilege shall be taken out of the farmers' pockets and off the farmers' throat."

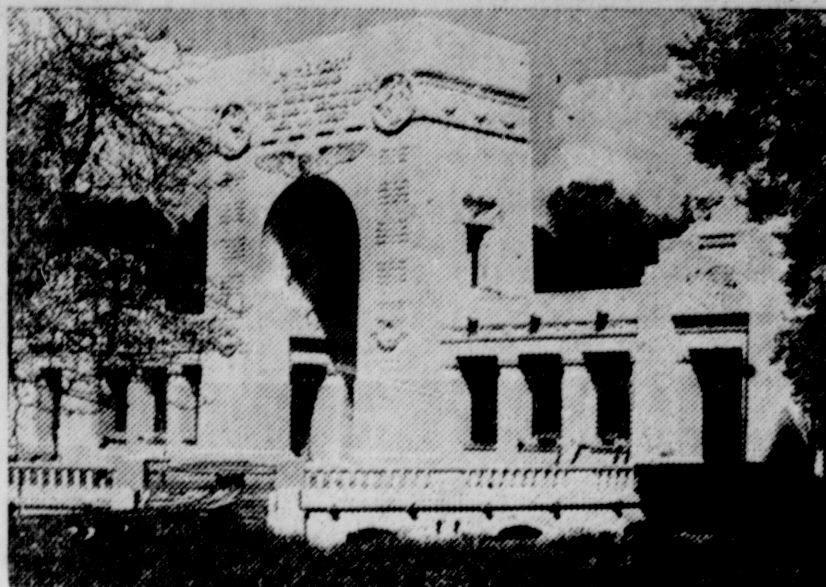

The convention cheered. It rose to its feet. Two men from North Dakota, bearing the delegation's place card, tramped out into the front of the hall. Others fell in. Soon the hall was alive with marchers. For six minutes they marched, and then suddenly found their places.

Mrs. Woodrow Wilson and Mrs. Alfred E. Smith were again guests of the convention, but were swallowed up in the throngs. Their presence went almost unnoticed except for reporters who hunted out their places.

Today, guests again suffered from the heat, but many were lured to the hall well in advance of the opening. The holiday spirit still lingered with hundreds.

FOUND GUILTY IN SQUIRREL DEATH

Judge J. H. Warner Stays \$10 Sentence on W. W. Bane to Saturday

COURT REVIEWS LAW

Abating Nuisance Under Game Laws Inoperative Until Commissioner Rules

Pointing out that the state game laws were absolute in the way of law enforcement and for that reason he had no recourse but to find the defendant guilty, Judge J. H. Warner this morning imposed a sentence of \$10 and costs on W. W. Bane, whose trial was conducted yesterday in municipal court in the shooting of a gray squirrel in his yard during the evening of June 8. Mr. Bane was charged with violating the state game laws, the complaint being made by Deputy Game Warden A. P. Cardle.

Requesting suspension of sentence, Mr. Bane was granted a stay of sentence until Saturday, June 30.

In reviewing the case before announcing the verdict, Judge Warner said in part:

"The defendant claimed the right to kill the squirrel, which was at the time on the defendant's home premises and attempting and threatening to kill a young brood of robins. This right was urged under the Common Law of abating a nuisance, and under Section 5639 General Statutes, Minn., 1923, (part of the game law), which provides that 'predatory wild animals, whether protected by law or not, may, when threatening to destroy or interfere with the breeding or propagation of protected wild animals, be destroyed under laws and regulations the commissioner may prescribe'.

"The court holds that this section is nugatory, until the commissioner promulgated a rule whereby the animal might be killed. As the commissioner had not taken any action and made no rule, the law was inoperative.

"In cases of emergency, as in this case, the matter could not be laid before the commissioner and a permit procured, before it was too late to protect or save the birds.

"There was evidence in the case that gray squirrels do kill young birds and destroy the eggs and nests, and that this squirrel was threatening to kill the young birds at the time. This feature of the case seems to be little known and the purpose of killing the squirrel to protect the young robins seemed to be the only purpose as the squirrel could not be driven from the tree by throwing at it or turning the hose on it."

ACCUSED OF WATCH THEFT FROM FRIEND

Elmer Olds Arrested at Pequot Yesterday Faces Charge of Second Degree Grand Larceny

BAIL FIXED AT \$1,000

Hearing Set for Friday; Defendant Alleged to Have Taken Watch From House

Accused of stealing a watch valued at \$25 from the home of his friend, George Brown, 1011 Kingwood street while he was an overnight guest, Elmer Olds was arraigned in municipal court this morning on a charge of second degree larceny.

Appearing without counsel, Olds requested a hearing in municipal court. Judge J. H. Warner set Friday, June 29, as the day of the preliminary trial.

Bail was fixed at \$1,000. Olds was arrested yesterday afternoon at Pequot by Sheriff Claus Theorin and Deputy Sheriff Charles Oberg.

BAND CONCERT AT GREGORY PARK

Last Minute Changes Made in Program Given Tonight

MORE NUMBERS ADDED

Ten Minute Intermission, Hour and a Half Concert

The band concert this evening at Gregory Park under the direction of William Knuppel promises to be very attractive owing to the fact that a last minute change in program has provided for an hour and a half concert with a ten minute intermission in the middle of the program. Heretofore the plan has been to allow a very short intermission after each selection but the new system allows for playing the numbers one after the other with only the one intermission.

The band feels that this change will allow a more attractive program and possibly a longer one. The members of the band would be very glad to get the comment of the listeners and if the plan proves successful it will be continued. The following program will be played this evening although it is possible that other numbers will be added if the time allows. The program:

March, "The Melody King"—S. B. Stambaugh.

Overture, "Nebuchadnezzar"—Verdi.

Fox-trot, "Fingering You"—G. B. DeSylve.

Overture, "Pretziosa"—W. L. Skaggs.

March, "Avion Carnival"—C. Faust.

10 Minute Intermission

Overture, "Silver Crescent"—Ed Russell.

Overture, "First Heart Throbs"—R. Ellenberg.

Selection, "The Serenade"—Victor Herbert.

Fox-trot, "My Ohio Home"—Gus Kahn.

Waltz, "La Gitana"—E. Bucalossi.

March, "The Stars and Stripes Forever"—Sousa.

Star Spangled Banner.

Eastern Star Initiation

The order of the Eastern Star held initiation at the regular meeting last Monday evening. After the business session a social hour was enjoyed. A large number were in attendance. Among the out-of-town guests were Past Matrons and Past Worthies Matron Mrs. May Paine, Mr. and Mrs. Braden, Mr. and Mrs. Cadwell of Minneapolis and Judge Pike of Marshall. They are also guests at the Cynosam club.

PROTECT SPUDS BY USING BORDEAUX

Use of Mixture Will Increase Potato Yield up to 75 Bushels an Acre

SPECIAL ATTENTION NEEDED

County Agent E. G. Roth Outlines Methods in Preserving Potato Leaf

Protection of potatoes from bugs, insects, and disease to increase the yield per acreage in Crow Wing county was outlined by E. G. Roth, county agent in an interview today.

"This is the time of the year that potato growing should receive special attention," said Mr. Roth, "the potato leaf is the factory for the manufacture of starches and other plant foods that make the potato and development of this factory will mean an increase in the number, size and quality of the tubers.

"The potato bug eats the leaf of the potato and therefore destroys that manufacturing plant. By no means should potato bugs be allowed on the vines. Any of the common potato sprays such as Paris Green or arsenate of lead destroy potato bugs.

"Another limiting factor in potato growth is the leaf hopper, a very small fly almost invisible to the human eye that sucks the juice from the leaf and stem. Bordeaux mixture acts as a repellent to the leaf hopper. Some of the most common potato vine diseases are early and late blight. Bordeaux mixture properly applied prevents these blights. It likewise keeps off mildew and numerous other plant diseases and should be far more generally used than it is in Crow Wing county.

Bordeaux mixture should first be used when the plants are 8 inches high. Bordeaux mixture and one of the arsenic sprays, (Paris Green, arsenate of lead) can be used together and in that way both the bugs and disease can be prevented in one operation.

"The use of Bordeaux mixture will increase the yield of potatoes up to 75 bushels an acre. It may be secured already mixed at any of the local dealers or can be mixed by the farmer by using the following ingredients: five pounds copper sulphate, five pounds unslacked lime to 50 gallons of water. Be sure and dissolve the copper sulphate alone, slack the lime and put in the solution alone before mixing in the water. Adding two pounds of Paris Green or arsenate of lead will complete the mixture which is effective against disease and insects. This application should be applied about three times during the season."

FOUND GUILTY IN SQUIRREL DEATH

Judge J. H. Warner Stays \$10 Sentence on W. W. Bane to Saturday

COURT REVIEWS LAW

Abating Nuisance Under Game Laws Inoperative Until Commissioner Rules

Pointing out that the state game laws were absolute in the way of law enforcement and for that reason he had no recourse but to find the defendant guilty, Judge J. H. Warner this morning imposed a sentence of \$10 and costs on W. W. Bane, whose trial was conducted yesterday in municipal court in the shooting of a gray squirrel in his yard during the evening of June 8. Mr. Bane was charged with violating the state game laws, the complaint being made by Deputy Game Warden A. P. Cardle.

Requesting suspension of sentence, Mr. Bane was granted a stay of sentence until Saturday, June 30.

In reviewing the case before announcing the verdict, Judge Warner said in part:

"The defendant claimed the right to kill the squirrel, which was at the time on the defendant's home premises and attempting and threatening to kill a young brood of robins. This right was urged under the Common Law of abating a nuisance, and under Section 5639 General Statutes, Minn., 1923, (part of the game law), which provides that 'predatory wild animals, whether protected by law or not, may, when threatening to destroy or interfere with the breeding or propagation of protected wild animals, be destroyed under rules and regulations the commissioner may prescribe'.

"The court holds that this section is nugatory, until the commissioner promulgated a rule whereby the animal might be killed. As the commissioner had not taken any action and made no rule, the law was inoperative.

"In cases of emergency, as in this case, the matter could not be laid before the commissioner and a permit procured, before it was too late to protect or save the birds.

"There was evidence in the case that gray squirrels do kill young birds and destroy the eggs and nests, and that this squirrel was threatening to kill the young birds at the time. This feature of the case seems to be little known and the purpose of killing the squirrel to protect the young robins seemed to be the only purpose as the squirrel could not be driven from the tree by throwing at it or turning the hose on it."

Accused of stealing a watch valued at \$25 from the home of his friend, George Brown, 1011 Kingwood street while he was an overnight guest, Elmer Olds was arraigned in municipal court this morning on a charge of second degree larceny.

Appearing without counsel, Olds requested a hearing in municipal court. Judge J. H. Warner set Friday, June 29, as the day of the preliminary trial.

Bail was fixed at \$1,000. Olds was arrested yesterday afternoon at Pequot by Sheriff Claus Theorin and Deputy Sheriff Charles Oberg.

BAND CONCERT AT GREGORY PARK

Last Minute Changes Made in Program Given Tonight

MORE NUMBERS ADDED

Ten Minute Intermission, Hour and a Half Concert

The band concert this evening at Gregory Park under the direction of William Knuppel promises to be very attractive owing to the fact that a last minute change in program has provided for an hour and a half concert with a ten minute intermission in the middle of the program. Heretofore the plan has been to allow a very short intermission after each selection but the new system allows for playing the numbers one after the other with only the one intermission.

The band feels that this change will allow a more attractive program and possibly a longer one. The members of the band would be very glad to get the comment of the listeners and if the plan proves successful it will be continued. The following program will be played this evening although it is possible that other numbers will be added if the time allows. The program:

March, "The Melody King"—S. B. Stambaugh.

Overture, "Nebuchadnezzar"—Verdi.

Foxtrot, "Fingering You"—G. B. DeSylve.

Overture, "Pretziosa"—W. L. Skaggs.

March, "Avion Carnival"—C. Faust.

10 Minute Intermission

Overture, "Silver Crescent"—Ed Russell.

Overture, "First Heart Throbs"—R. Ellenberg.

Selection, "The Serenade"—Victor Herbert.

Foxtrot, "My Ohio Home"—Gus Kahn.

Waltz, "La Gitana"—E. Bucalossi.

March, "The Stars and Stripes Forever"—Sousa.

Star Spangled Banner.

Eastern Star Initiation

The order of the Eastern Star held initiation at the regular meeting last Monday evening. After the business session a social hour was enjoyed. A large number were in attendance. PROTECT SPUDS BY USING BORDEAUX

Use of Mixture Will Increase Potato Yield up to 75 Bushels an Acre

SPECIAL ATTENTION NEEDED

County Agent E. G. Roth Outlines Methods in Preserving Potato Leaf

Protection of potatoes from bugs, insects, and disease to increase the yield per acreage in Crow Wing county was outlined by E. G. Roth, county agent in an interview today.

"This is the time of the year that potato growing should receive special attention," said Mr. Roth, "the potato leaf is the factory for the manufacture of starches and other plant foods that make the potato and development of this factory will mean an increase in the number, size and quality of the tubers.

"The potato bug eats the leaf of the potato and therefore destroys that manufacturing plant. By no means should potato bugs be allowed on the vines. Any of the common potato sprays such as Paris Green or arsenate of lead destroy potato bugs.

"Another limiting factor in potato growth is the leaf hopper, a very small fly almost invisible to the human eye that sucks the juice from the leaf and stem. Bordeaux mixture acts as a repellent to the leaf hopper. Some of the most common potato vine diseases are early and late blight. Bordeaux mixture properly applied prevents these blights.

It likewise keeps off mildew and numerous other plant diseases and should be far more generally used than it is in Crow Wing county. Bordeaux mixture should first be used when the plants are 8 inches high. Bordeaux mixture and one of the arsenic sprays, (Paris Green, arsenate of lead) can be used together and in that way both the bugs and disease can be prevented in one operation.

"The use of Bordeaux mixture will increase the yield of potatoes up to 75 bushels an acre. It may be secured already mixed at any of the local dealers or can be mixed by the farmer by using the following ingredients: five pounds copper sulphate, five pounds unslacked lime to 50 gallons of water. Be sure and dissolve the copper sulphate alone, slack the lime and put in the solution alone before mixing in the water. Adding two pounds of Paris Green or arsenate of lead will complete the mixture which is effective against disease and insects. This application should be applied about three times during the season."

For the past several years Mr. Barber has spent his vacations with Mr. and Mrs. W. A. M. Johnstone at the Johnstone summer home on Gull Lake.

Because of Mr. Barber's many friends and relatives in Brainerd funeral services will be held for him in Brainerd on Friday afternoon and interment will be made in Evergreen cemetery.

LIFE'S
LITTLE
JESTS

TOO RECKLESS

"Darling," a young bride whispered, who had gone to the bank with her husband to draw the down-payment on an automobile, "hadn't I better put it in my stocking?"

"I should say not!" was the reply. "That's too much money to be carried in plain sight."—Montreal Star.

It's Wise to Be Wise

A man told his son that two things were necessary for success. "And what are those?" the boy asked.

"Honesty and sagacity."

"What is honesty?"

"Always keep your word."

"And what is sagacity?"

"Never to give your word!"

The Rich One

"I don't know why you won't have anything to do with Luis. Such a handsome man. And in addition, such fine prospects."

"I haven't heard about that."

"Oh, yes; he has a bachelor uncle who is a beggar in New York."—Pathfinder.

Not Necessary

Traveler (on boat)—You were sick the first few days of the trip and the captain gave you leave? Did you ask for it?

The New Deck Hand—I didn't need to ask.

NINE LIVES

First Fisherman—I thought I'd killed that fish, but it's still alive.

Second Ditto—Don't you see it's a catfish, man?

Abuse of Power

High place with privilege is fraught. He talked an hour or more, And made us wonder if he ought To be, perchance, a bore.

Of the Same Mind

Magistrate—It seems strange to me that you could keep on robbing that enormous corporation for so long without being caught.

The Prisoner (brightly)—Well, the corporation was pretty busy itself.

Not Very Hungry

Tramp—Lady, could you give a poor fellow a bite to eat?

Farmer's Wife—Out there is the woodpile and the ax.

Tramp—Pardon me, lady, but I'm so subject to splitting headaches.

Reason for Wealth

Mrs. Brown—Do you think they are rich?

Mrs. Jones—Of course they are rich; they're still using last year's car.

SWEEPING REMARK

Miss—I don't believe Mrs. Brown ever brushes out her house.

Mister—I wouldn't say that—it's too sweeping a remark.

Traveler's Note

Sometimes I go from here to there. With exercise of patient care; And then I always persevere In getting back from there to here.

An Apt Pupil

"My wife's learning the piano, and my daughter the violin."

"And you—what are you learning?"

"To suffer in silence."—Gutierrez (Madrid).

Almost Finished

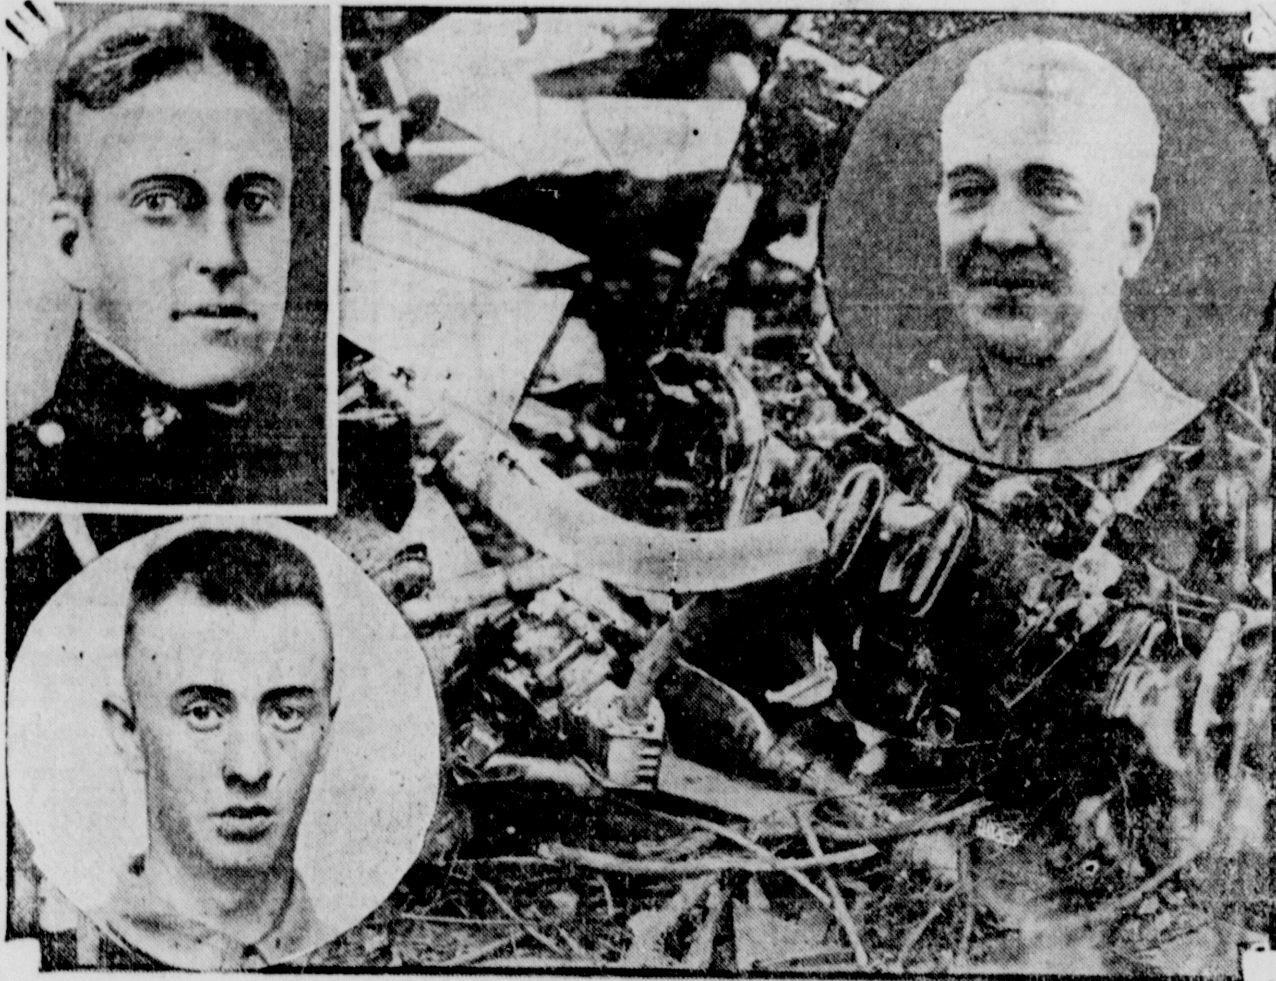

Mrs. Gnaggs—This is the end I can live with you no longer.

Mr. Gnaggs—Yes, I guess it's all over but the shooting.

CITATION FOR HEARING ON PETITION FOR PROBATE OF FOREIGN WILL

No. 3172
State of Minnesota, County of Crow Wing, ss., In Probate Court.

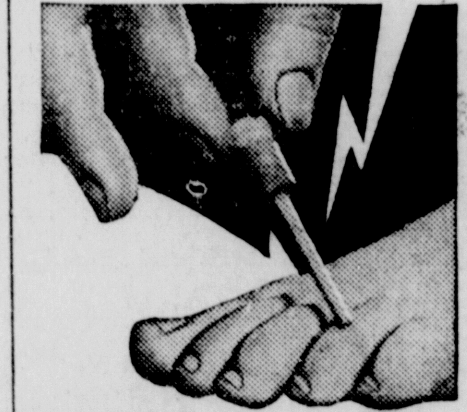

In the Matter of the Estate of Jennie R. Moberg, Decedent.

The State of Minnesota to all persons interested in the allowance and probate of the will of said decedent: The petition of Ethel M. Zapffe, representing that Jennie R. Moberg, then a resident of the County of Skagit, State of Washington, died on the 27th day of December, 1927, testate and that her will has been allowed and admitted to probate in the Superior court in and for the County of Skagit, State of Washington, being filed in this court, together with authenticated copies of said will and of the probate thereof in the court above named, and praying that said will be admitted to probate in this State, and that letters of administration with foreign will annexed be thereon granted to Ethel M. Zapffe.

NOW, THEREFORE, you, and each of you, are hereby cited and required to show cause, if any you have, before this court, at the Probate Court Rooms, in the Court House, in Brainerd, County of Crow Wing, State of Minnesota, on the 9th day of July, 1928, at ten o'clock A. M., why the prayer of said petition should not be granted.

Witness the Honorable L. B. Kinder, Judge of said Court, and the seal of said Court, this 11th day of June, 1928. (Probate Court Seal) L. B. KINDER, Judge of Probate Court.

Corns
Stop Hurting
Instantly

then Lift Right Off!

Drop "Freezone" on that aching corn. Instantly it stops hurting; then shortly you lift the corn right off with your fingers. You'll laugh, really! It is so easy and doesn't hurt one bit! Works like a charm, every time.

A tiny bottle of "Freezone" costs only a few cents at any drug store, and is sufficient to remove every hard corn, soft corn and callouses. Try it!

LIFE'S
LITTLE
JESTS

TOO RECKLESS

"Darling," a young bride whispered, who had gone to the bank with her husband to draw the down-payment on an automobile, "hadn't I better put it in my stocking?"

"I should say not!" was the reply. "That's too much money to be carried in plain sight."—Montreal Star.

It's Wise to Be Wise

A man told his son that two things were necessary for success.

"And what are those?" the boy asked.

"Honesty and sagacity."

"What is honesty?"

"Always keep your word."

"And what is sagacity?"

"Never to give your word!"

The Rich One

"I don't know why you won't have anything to do with Luis. Such a handsome man. And in addition, such fine prospects."

"I haven't heard about that."

"Oh, yes; he has a bachelor uncle who is a beggar in New York."—Pathfinder.

Not Necessary

Traveler (on boat)—You were sick the first few days of the trip and the captain gave you leave? Did you ask for it?

The New Deck Hand—I didn't need to ask.

NINE LIVES

First Fisherman—I thought I'd killed that fish, but it's still alive.

Second Ditto—Don't you see it's a catfish, man?

Abuse of Power

High place with privilege is fraught. He talked an hour or more, And made us wonder if he ought To be, perchance, a bore.

Of the Same Mind

Magistrate—It seems strange to me that you could keep on robbing that enormous corporation for so long without being caught.

The Prisoner (brightly)—Well, the corporation was pretty busy itself.

Not Very Hungry

Tramp—Lady, could you give a poor fellow a bite to eat?

Farmer's Wife—Out there is the woodpile and the ax.

Tramp—Pardon me, lady, but I'm so subject to splitting headaches

Reason for Wealth

Mrs. Brown—Do you think they are rich?

Mrs. Jones—Of course they are rich; they're still using last year's car.

SWEEPING REMARK

Miss—I don't believe Mrs. Brown ever brushes out her house.

Miss—I wouldn't say that—it's too sweeping a remark.

Traveler's Note

Sometimes I go from here to there. With exercise of patient care; And then I always persevere In getting back from there to here.

An Apt Pupil

"My wife's learning the piano, and my daughter the violin."

"And you—what are you learning?"

"To suffer in silence."—Gutierrez (Madrid).

Almost Finished

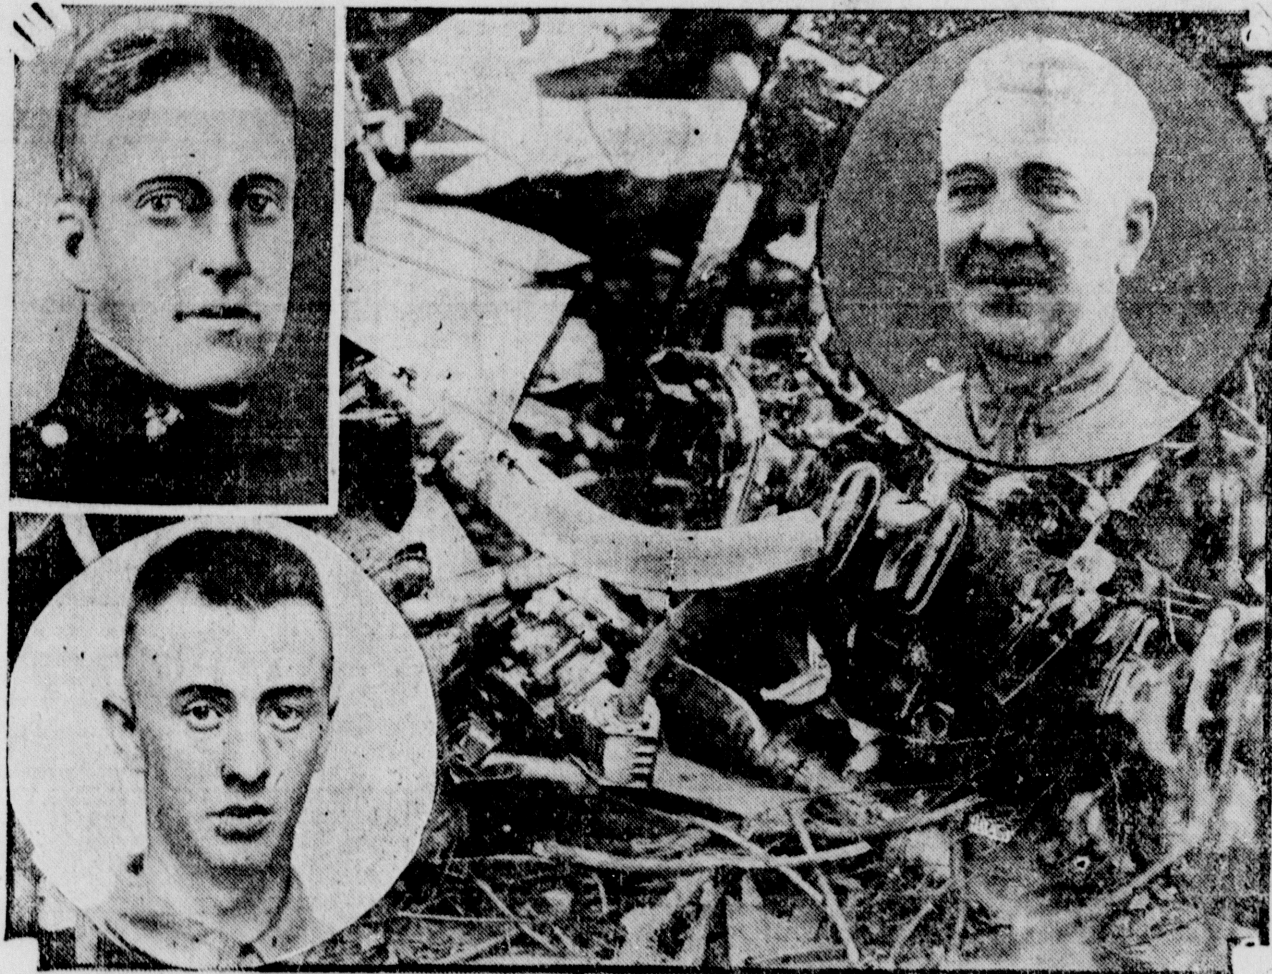

Mrs. Grogg—This is the end. I can live with you no longer.

Mr. Grogg—Yes, I guess it's all over but the shooting.

SOMETHING ELSE TO WORRY ABOUT

Three Die in Marine Plane Crash

Scarcely an hour after he took off from Bolling Field, Major Charles A. Lutz (inset at right), the Navy's speed champion, and two of his three aides, Lieut. H. T. Busbey (above at left), U. S. M. C., and Corporal D. C. Mc-

Chesney (below at left), were killed when their giant tri-motored transport plane crashed and somersaulted to splinters near File, Va., 100 miles south of the capital. The above photograph shows the wreckage.
